

AMENDMENTS TO THE CLAIMS

Please **AMEND** claims 12, 15, 16, 18, and 19 as shown below.

This listing of claims will replace all prior versions, and listings, of claims in the application:

1-11. (Cancelled)

12. (Currently Amended) A drug delivery mouthpiece, comprising:

a hollow body having a top and a bottom;

an intake port and a delivery port proximate the top of the hollow body;

a reversibly attachable connection port proximate the bottom of the hollow body;

nebulizer inlet and a nebulizer outlet proximate the bottom of the hollow body;

and

a baffle at least partially disposed within the hollow body, such that the baffle is a barrier and wherein the hollow body and the baffle define an air flow path having portions parallel to one another through an interior of the hollow body; and

wherein the drug delivery mouthpiece is structured and arranged such that a patient's breathing generates an air flow that follows the air flow path defined by the hollow body and the baffle to deliver a medicament to the patient.

13-14. (Cancelled)

15. (Currently Amended) The drug delivery mouthpiece of claim ~~13~~ 12, wherein the baffle comprises includes a substantially planar member disposed between the intake flow path and the delivery flow path.
16. (Currently Amended) The drug delivery mouthpiece of claim ~~13~~ 12, wherein the connection port is configured to reversibly attach to a chamber.
17. (Original) The drug delivery mouthpiece of claim 16, wherein the baffle is configured to protrude into a chamber connected to the connection port.
18. (Currently Amended) The drug delivery mouthpiece of claim 17, wherein the baffle is configured to direct the intake flow path out of the hollow body and into a chamber connected to the connection port, and the baffle is configured to direct the delivery flow path from ~~the~~ the chamber connected to the connection port into the hollow body.
19. (Currently Amended) The drug ~~deliver~~ delivery mouthpiece of claim 12, wherein the delivery port is disposed on a conduit attached proximate a top of the hollow body.
20. (Original) The drug delivery system of claim 19, wherein the conduit comprises an exhaust outlet.

21. (Previously Presented) The drug delivery system of claim 20, wherein the exhaust outlet is selectably sealable.

22. (Previously Presented) The drug delivery system of claim 21, wherein the exhaust outlet includes a one-way valve.

23. (Cancelled)
